800 668 4842

# Strengths

- Growing Rapidly
- Profitable
- Proven Track Record
- Differentiation Through:
  - Focusing on Customers
  - Providing Solutions
  - Superior Service Levels
  - New Product Development
  - Flexibility of a Focused Manufacturing Centre
  - Specialization – Instrument and Control Only

800 668 4842

# Capabilities

- 135,000 sq ft Manufacturing Facility in Toronto
- 40 plus years of Experience in building Instrumentation, Control and Composite cables
- Design Capability to Create Custom cables
- Plant Configured for Short Runs – Low Minimums
- Short Lead Times for RTO orders – 4 to 6 weeks
- In House Electron Beam Accelerator
- New Product Development Focus
  - Access to ShawCor's Research and Development Centre
- Flexibility and Expertise of a Specialist

800 668 4842

# Product Offering

- Twisted and Shielded Instrumentation cable
  - CSA 150, 300 and 600 Volt Unarmoured or Armoured cable
  - CSA 150, 300 and 600 Volt Tray cable
  - UL 300 Volt PLTC PVC/PVC Unarmoured or Armoured cable
  - UL 600 Volt TFN/PVC Tray Cable
- Thermocouple Extension Grade cable
- UL PLTC Zetabon® cable
- ARMCON®, Armoured Control cable
- Teck 90 cable

800 668 4842

# Product Offering

- Flexar®, Flexible Control cable
- VFD, Variable Frequency Drive cable
- Marine/Shipboard cable
- XLPE/CPE Instrument cable
- Custom and Composite cables

800 668 4842

# What ShawFlex Can Do for You

- Be Responsive to Customer Needs – as a specialist ShawFlex possesses vast experience in handling unique customer requirements as well as the flexibility to react quickly to provide a custom solution
- Provide Premium Quality Products – ShawFlex uses short lead times to provide fast service on items which must be run to order
- Use Short Minimum Run Capability – reduce your investment in RTO items
- Develop Composite Control Cables – reduce your installation costs or solve problems such as physical space constraints
- Provide Technical Support – ShawFlex will work with your Engineering group to solve Instrument and Control cable application problems
